

Sprint 2 Plan

Slug Mart - Team Slug Mart

Sprint Completion Date: 11/06/24

Revision 1, Last Revised 10/28/24

Goal:

- Finish browse page front end + add categories
- Sell page can add multiple images and front end look better
- Account page make ui look better
- Everything has to be mobile friendly while we code, so to do this:
 - inspect element next to the elements
 - there is a computer with a little phone
 - click it it will show you how the page looks on a mobile device
- Start brainstorming about messaging system and how to implement that

User Stories: Item Listing & Browsing

As a UCSC Student, I want to set up my profile so people know who I am [13]

As a UCSC Student, I want to be able to post items I have for sale. [21]

As a UCSC Student, I want to be able to browse available items for sale [21]

Spikes:

Connecting to Firebase

Asking permissions to use camera, upload images

Form Validation/User feedback

Research how to implement messaging

Project Owner: Ethan Wong

Scrum Master: Jay Rai

Other Members: Harman Gidha, Hyun Kim, Isaac Flores, David Kou

Techstack:

Front End: React , JavaScript, HTML5/CSS

Backend: Node.js, Express.js, (Hosting: Linode/IIS), Firebase

Product Management/Communication: GitHub, Figma, Discord`

User Story 1 (As a UCSC Student, I want to set up my profile so people know who I am)

- Task 1: Make website mobile responsive and draw up a design (3)
- Task 2: Connect profile page to other parts of site using a navbar (2)
- Task 3: Design and implement profile (8)

- Show listings, location, contact information (email), name, Account Profile (be able to change that from default google)

User Story 2 (As a UCSC Student, I want to be able to post items I have for sale.)

- Task 1: Create a sell page (1)
- Task 2: Normalizer for images (8)
- Task 3: Be able to add a Title, Price, Category, Condition, Multiple photos, video?, Description for each item. (9)
- Task 4: Make image appear in browse (3)

User Story 3: As a UCSC Student, I want to be able to browse available items for sale

- Task 1: Create a browse page [9]
 - Task 1.1: Each item in browse page should only include a picture of the item, item name, and price. More information will be provided if user clicks it.
- Task 2: connect sell page to browse page so anything created in sell page goes to browse page [1]
- Task 3: Front end [3]
- Task 4: Be able to click each item and enlarge it/bring it to another page with more detailed information/contact information + more images [8]
 - Task 4.1: needs to display following information: multiple images that user uploads, contact information, message button, back button, etc.. scroll down for example.
 - Task 4.2: If no message button, allow other users to pull up people's profile.
- Task 5: Add categories to items and allow users to search by category [5]
 - Task 5.1: add separate tabs for different categories. Scroll down for example. Also, maybe a search filter for smarter searching.

Infrastructure Tasks

- Decide site layout (sitemap)
- Decide on website style design/color palette

Spikes

- Keep learning tech stack

Team roles

Ethan Wong : *Project Owner {Developer} {SCRUM Master}*

Jay Rai : *Developer*

Isaac Flores : *Developer*

Harman Gidha : *Developer*

Hyun Kim : *Developer*

David Kou : *Developer*

Initial task assignment

David: Listings page/Browse page

Harman: Sell page CSS

Hyun: Edit Listing Page

Ethan: Navbar, View your listings Page

Jay: Account page (Front), View-listings (Back)
